cyberhaven

Cyberhaven Insider Risk Intelligence Service (IRIS)

Organizations face growing insider risk threats, from data exfiltration to policy violations. Yet most security teams lack the structured programs, cross-functional workflows, and expert guidance needed to operationalize insider risk management across HR, legal, security, and the business. IRIS combines threat intelligence, program assessment, and prescriptive workflows to help organizations build and mature their insider risk programs, grounded in Cyberhaven's proprietary Threat Actor DNA framework.

KEY FEATURES

Quarterly Insider Threat Patterns
Research into emerging patterns, cross-customer trends, policy and detection deployment

Program & Workflow Consultation
Workflow mapping, guidance and strategy, dashboards and remediation runbooks

Quarterly Insider Risk Program Maturity Assessment
Evaluation against Threat Actor DNA types, capability scoping, output prioritization

Labs Analysis on Threat Actor DNA (optional)
Manual analysis of recent user activity; prioritized list in the IRIS reporting package

Biannual Executive Insider Risk Review
Program progress, maturity changes, business-level impact, next two quarters of priorities

Insider Risk Community Access
Quarterly meetups, Slack space, curated reports

IRIS BENEFITS

- Build and mature a structured insider risk program with expert-guided support
- Operationalize insider risk across HR, legal, security, and the business
- Stay ahead of emerging threats with quarterly intelligence
- Demonstrate program progress with objective maturity scoring and executive-ready reporting
- Access a peer community of insider risk practitioners
